Dear Naznin,

Congratulations! It is with great pleasure that we offer you admission to the Master of Science program in Business Analytics at Montclair State University beginning Spring 2026.

You will be contacted shortly by the MSBA program with specific program information and instructions to get started. You will be required to complete a foundation module (in a key subject area) before registering for MSBA courses. In order to indicate your intent to enroll at Montclair State University, you must submit your non-refundable enrollment deposit by December 1st. This deposit will be applied to your student account after you have registered for coursework. Enrollment deposits are only refundable if your student visa is denied using Montclair's I-20.

To pay your deposit online using a credit card, [visit our website for details on how to complete your payment](#). You may also pay your enrollment deposit by check or money order by following the instructions in your [admitted student portal](#).

Your CWID: 50166862

Your PIN: Your 6-digit date of birth. For example, 071275 for July 12, 1975.

\* Note: If you are/were a student at Montclair State University, you may still need to use your NetID and password to log in, or use your old PIN.

Once your payment has been received and confirmed by the Office of Graduate Admissions you will receive an additional update with your next steps. If your deposit is not received, your offer of admission will be withdrawn.

The Office of Graduate Admissions looks forward to working with you as you meet the intellectual challenges ahead.

Sincerely,

Timothy Hart  
Director of Graduate Admissions
